SOLUTION BRIEF

Adobe Workfront Rapid Deployment Accelerator

Delivering a best-in-class Work Management implementation - enhancing team productivity and collaboration whilst increasing workload visibility.

Solution Overview

This accelerator is ideal for customers with the following challenges:

Across a broad range of industries, including those with high regulation, this Rapid Deployment solution is Adobe-powered and Blueprintx-enhanced designed to deliver swift and impactful results. Blueprintx's Accelerator provides a comprehensive view of workloads- planned and ongoing tasks, empowering managers and teams with enhanced visibility and transparency of projects.

Collaboration amongst team members, with stakeholders, and across functions is empowered with a centralized platform for communication and document sharing. By centralizing work management, automating workflows, and enhancing collaboration, we significantly improve productivity. This solution seamlessly integrates within your martech stack and offers robust reporting capabilities.

Blueprintx's Adobe Workfront Rapid Deployment Accelerator ensures that initiatives are executed efficiently, with the right people in the right roles, focusing on the most impactful tasks. Teams are empowered to prioritize tasks, meet deadlines, and manage work more effectively, delivering business-as-usual content with greater efficiency.

A design phase of the solution ensures bespoke implementation, and integration with the right marketing technologies, driving adoption and utilization, and providing reporting and business intelligence to help delivery at scale.

The results; reduction in costs and risk, driving greater ROI.
